

Shimmering Crystal Weave Bracelet (1 of 2)

Tools: Chain nose pliers, Wire cutter and/or crimping pliers

Materials for 7" bracelet:

68 x 4mm bicone Swarovski crystal beads in 3 to 4 colors
2 x 4mm silver round beads
50 x 2mm silver round beads
2 ft x C-Flex beading wire (0.012 mm)
1 x crimp tube
1 set of clasp

1. Slide one side of the clasp into center of the beading wire. String 1 x 4mm silver into both wire. Pull tight.

2. Separate the wires. On EACH wire, string 1 x color A crystal, 1 x 2mm silver bead, 1 x color B crystal. Then, string 1 x 2mm silver bead into one wire, string the other wire into the same 2mm silver beads from the opposite direction (criss cross). Pull tight.

3. Separate the wires. On EACH wire, string 1 x color B crystal, 1 x 2mm silver bead, 1 x color C crystal. Then, string 1 x 2mm silver bead into one wire, criss-cross the other wire into the same 2mm silver bead from the opposite direction. Pull tight.

4. Separate the wires. On EACH wire, string 1 x color C crystal, 1 x 2mm silver bead, 1 x color D crystal (or color A, if using only 3 colors). Then, string 1 x 2mm silver bead into one wire, criss-cross the other wire into the same 2mm silver bead from the opposite direction. Pull tight.

5. Separate the wires. On EACH wire, string 1 x color D crystal (or color A if using 3 colors), 1 x 2mm silver bead, 1 x color A crystal (or color B, if using 3 colors). Then, criss-cross 2 wires into 1 x 2mm silver bead. Pull tight.

6. Repeat Steps to make diamond patterns until reaching the desired bracelet length minus 3/4". Separate the wire. On EACH wire, string 1 x crystal (continue your color pattern), 1 x 2mm silver bead, and 1 x crystal (next color on your pattern).

Shimmering Crystal Weaving Bracelet (2 of 2)

7. String 1 x 4mm silver bead, 1 x crimp tube and the other side of the clasp into both wires.

8. Loop the wires back through the crimp tube. Pull beads close to the clasp and crimp with chain nose pliers or crimping pliers. Cut the excess wire.

Tips:

Our instructions start with a half pattern, however, you can also start with a full pattern by stringing 2 color A crystals after the 4 mm silver bead, criss-cross the 2 wires with a 2 mm silver bead, separate to string 1 color A crystal in each wire, and so on...

Adjust the patterns to accommodate different bracelet length.

Variations:

1. Add daisy spacer beads between crystals instead of 2mm beads.

2. Use button for closure instead of clasp. Use 2mm silver beads to make a loop large enough for the button.
